11:07:10 From Paz Delsid to Everyone: Working with UCSF Healthforce,collecting Data for Regional Health Workforce Planning - Do you need data? Do you know sources & trade-offs? Know how to apply it at the regional or program level?

Feel free to use the chat to answer the questions

11:08:00 From Sonia Shah, Coalition of Orange County Community Health Centers to Everyone: Yes absolutely- it would be helpful to share the sources and such

11:08:09 From Martina Giselle Ramirez to Everyone: Yes,, that would be great

11:08:12 From Pamela Heston-Bechtol- DEP, Mendocino College- she/her to Everyone: Yes to all.

11:08:16 From Teresa Cofield to Everyone: yes, especially if this data is centrally located

11:08:20 From Susan McGraw to Everyone: Yes, we are looking forward to working with Hovik to get better quality regional and local data!

11:08:34 From Michelle Shoresman - SLO Public Health to Everyone: We have been gathering this data ourselves, but it is hard to do it in a comprehensive way, on our own. It would be great if there was a larger, state-level effort to gather this data...done by experts in data collection

11:08:37 From Clayton Ipsen, HealthForce to Everyone: This would be helpful as long as it is accurate and we can truly be regional.

11:08:37 From Lilian Gonzalez to Everyone: Yes, it would be helpful to have access to "current local employer numbers needed, vacancy, turnover, and retention rates." This would help better understand specific career needs.

11:08:41 From Grant Hartzog to Everyone: I use the UCSF site all the time. Being able to drill down to more targeted, local data is always helpful

11:09:05 From Sonia Shah, Coalition of Orange County Community Health Centers to Everyone: I also wish the data could be made to filter down at different levels - depending on what we need to use the data for.

11:09:17 From Shermineh Davari (PhD) (she/her) | Reach Out to Everyone: Through our Public Health Consortium effort, we have been in the process to publish the first ever Public Health Workforce Data report in Inland Empire Region.

11:09:32 From Sheila Thornton to Everyone: We could use this data - specifically if it could be cut for our region. I like the addition of the data on language capabilities - again, it would help if it could be for specific zip codes to catalyze collective action

11:09:35 From Michelle Shoresman - SLO Public Health to Everyone: Can you share the link to this site?

11:09:48 From Martina Giselle Ramirez to Everyone: great to have Zip code specific data

11:10:59 From Sheila Thornton to Everyone: It would be great to have data on what % of the workforce are from the local region across pathways

11:20:36 From Kaitlin Jackson, EdD | CMSP to Everyone: Thank you for the highlight! Excited to continue the work and support the students: <https://californiamedicinescholarsprogram.org/>

11:30:53 From Michelle Shoresman - SLO Public Health to Everyone: Thank you Hovik! A lot of info!

11:31:26 From Susan McGraw to Everyone: Will those slides be available after today's meeting?

11:31:50 From Susan McGraw to Everyone: Very helpful to see an overview of the impact of the budget cuts.

11:32:51 From Michelle Shoresman - SLO Public Health to Everyone: I'd be curious to know where most of the funding Hovik described ends up going? Like which regions across the state have residents that receive the benefit of these programs...

11:46:40 From Paz Delsid to Everyone: CONFERENCE WEB PAGE: <https://chpc.ucsf.edu/2024conference>

11:46:51 From Sheila Thornton to Everyone: Thank you, all for an excellent meeting. I need to drop off.

11:47:15 From Hovik Khosrovian - HCAI to Everyone: <https://hcai.ca.gov/public-meetings/>
